KENWOOD

MONITOR WITH DVD RECEIVER

KVT-817DVD

INSTRUCTION MANUAL

Kenwood Corporation

Take the time to read through this instruction manual.
Familiarity with installation and operation procedures will help you obtain the best performance from your new DVD Receiver.
For your records
Record the serial number, found on the back of the unit, in the spaces designated on the warranty card, and in the space provided below. Refer to the model and serial numbers whenever you call upon your Kenwood dealer for information or service on the product.
Model KVT-817DVD Serial number _____

Contents

Before Use

⚠WARNING

To prevent injury or fire, take the following precautions:
- To prevent a short circuit, never put or leave any metallic objects (such as coins or metal tools) inside the unit.
- Do not touch the liquid crystal fluid if the LCD is damaged or broken due to shock. The liquid crystal fluid may be dangerous to your health or even fatal.
  If the liquid crystal fluid from the LCD contacts your body or clothing, wash it off with soap immediately.

⚠CAUTION

To prevent damage to the machine, take the following precautions:
- Make sure to ground the unit to a negative 12V DC power supply.
- Do not install the unit in a spot exposed to direct sunlight or excessive heat or humidity. Also avoid places with too much dust or the possibility of water splashing.
- Do not place the faceplate or the faceplate case in areas exposed to direct sunlight, excessive heat or humidity. Also avoid places with too much dust or the possibility of water splashing.
- To prevent deterioration, do not touch the terminals of the unit or faceplate with your fingers.
- Do not subject the faceplate to excessive shock, as it is a piece of precision equipment.
- When replacing a fuse, only use a new fuse with the prescribed rating. Using a fuse with the wrong rating may cause your unit to malfunction.
- Do not use your own screws. Use only the screws provided. If you use the wrong screws, you could damage the unit.
- You cannot view video pictures whilst the vehicle is moving. To enjoy TV/video pictures, find a safe place to park and engage the parking brake.

NOTE
- If you experience problems during installation, consult your Kenwood dealer.
- If the unit fails to operate properly, press the Reset button to restore factory settings.
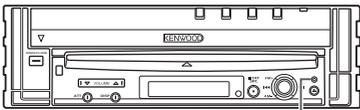

Reset button

Screen brightness during low temperatures
When the temperature of the unit falls such as during winter, the liquid crystal panel's screen will become darker than usual. Normal brightness will return after using the monitor for a whilst.

Audio units you can control from the KVT-817DVD Receiver (As of June, 2005):
KTC-SR901, KTC-SR902, KTC-SR903, KTC-HR100, KTC-HR100MC, KTC-HR100TR, KHD-CX910, KHD-C710, KTC-WB100, KDC-C719, KDC-C669, KDC-C469, KDV-C810, KDC-CX89, KDC-CX87, KDC-C717, KDC-C667, KDC-C467, KDC-D301, KDC-CX85, KDC-C715, KDC-C665, KDC-C465, KDC-CX82, KDC-C712, KDC-662, KDC-D300, KMD-D400, KTC-9090DAB, KTC-V500N

(Set the "O-N" switch to "N" position if provided.)

Navigation units you can control from the KVT-817DVD Receiver (As of June, 2005):
KNA-DV2100, KNA-DV3100, KNA-DV4100

Loading and Replacing the battery
1. Use two "R03"/ "AAA"-size batteries. Slide the cover while pressing downwards to remove it as illustrated.
2. Insert the batteries with the ⊕ and ⊖ poles aligned properly, following the illustration inside the case.
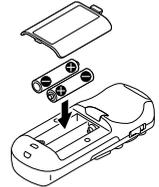

⚠WARNING

Store unused batteries out of the reach of children. Contact a doctor immediately if the battery is accidentally swallowed.

⚠

- Do not set the remote control on hot places such as above the dashboard.

- The provided batteries are intended for use in operation checking, and their service life may be short.
- When the remote controllable distance becomes short, replace both of the batteries with new ones.

Cleaning the panel and monitor
When the operator panel and monitor panels are dirty, wipe and clean them using a soft cloth (such as a commercially available silicon coated cloth). When contaminated excessively, clean them using a cloth dipped in a neutral detergent first, then remove the detergent using a dry cloth. Do not use a hard cloth and a volatile chemical (such as an alcohol). If used, the panel surface may be scratched or printed letters may be erased.

Cleaning the disc slot
As dust can accumulate in the disc slot, clean it occasionally. Your discs can get scratched if you put them in a dusty disc slot.

Lens Fogging
Right after you turn on the car heater in cold weather, dew or condensation may form on the lens in the disc player of the unit. Called lens fogging, discs may be impossible to play. In such a situation, remove the disc and wait for the condensation to evaporate. If the unit still does not operate normally after a whilst, consult your Kenwood dealer.

Region codes in the world

The DVD players are given a region code according to the country or area it is marketed, as shown in the following map.
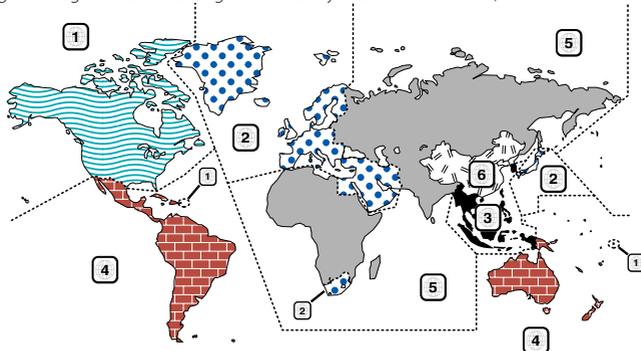

Icons on the DVD discs

Icon	Description
ALL	Indicates the region code where the disc can be played.
8)))	Number of voice languages recorded with the audio function. The number in the icon indicates the number of voice languages. (Max. 8 languages)
32.	Number of subtitle languages recorded with the subtitle function. The number in the icon indicates the number of subtitle languages. (Max. 32 languages)
9	Number of angles provided by the angle function. The number in the icon indicates the number of angles. (Max. 9 angles)
16:9 LB	Aspect ratios that can be selected. "LB" stands for Letter Box and "PS" for Pan/Scan. In the example on the left, the 16:9 video can be converted into letter box video.

Unplayable discs

This player cannot play back any of the following discs.

- DVD-ROM/DVD-RAM discs
- CDV discs (Only the audio part can be reproduced)
- Photo CD discs
- HQ-VCD/SVCD discs
- CD-G/CD-EG/CD-EXTRA discs (Only the audio can be reproduced)
- DVD-Audio

Also, you cannot play back the DVD-R/RW and DVD+R/RW discs if not recorded in the DVD-Video format.

Restrictions due to difference between discs

Inhibition icon

Some DVD and VCD discs can be played only in certain playback modes according to the intentions of the software producers. As this player plays discs according to their intentions, some functions may not work as intended by you. Please be sure to read the instructions provided with each disc. When an inhibition icon is displayed on the monitor, it indicates that the disc being played is under the restriction as described above.

The illustrations of the display and the panel appearing in this manual are examples used to explain more clearly how the controls are used. Therefore, what appears on the display in the illustrations may differ from what appears on the display on the actual equipment, and some of the illustrations on the display may represent something impossible in actual operation.

Explanation of icons used on this manual

Indicates the key operation on the receiver.

Indicates the button you must touch.

Indicates the key or joystick operation on the remote controller.

The initial value of each setup is shown.

Gives an additional information or an operation advice.

This unit can play MP3 (MPEG1 Audio Layer 3)/ WMA/JPEG/MPEG (MPEG 1/MPEG 2). Note, however, that the MP3/WMA/JPEG/MPEG recording media and formats acceptable are limited. When writing MP3/WMA/JPEG/MPEG, pay attention to the following restrictions.

Acceptable media

The MP3/WMA/JPEG/MPEG recording media acceptable to this unit are CD-ROM, CD-R, CD-RW,DVD-R/RW and DVD+R/ RW.
When using CD-RW, do full format not quick format to prevent malfunction.

Acceptable medium formats

The following formats are available for the media used in this unit. The maximum number of characters used for file name including the delimiter (".") and three-character extension are indicated in parentheses.
• ISO 9660 Level 1 (12 characters)
• ISO 9660 Level 2 (31 characters)
• Joliet (64 characters)
• Romeo (128 characters)
Up to 200 characters can be displayed in the long file name format. For a list of available characters, see the instruction manual of the writing software and the section Entering file and folder names below.
The media reproducible on this unit has the following limitations:
• Maximum number of directory levels: 8
• Maximum number of files per folder: 255
• Maximum number of characters for folder name: 200
• Maximum number of folders: 254
MP3/WMA/JPEG/MPEG written in the formats other than the above may not be successfully played and their file names or folder names are not properly displayed.

Settings for your MP3/WMA/JPEG/MPEG encoder and CD/DVD writer

Do the following setting when compressing audio data in MP3/WMA data with the MP3/WMA encoder.
MP3/WMA
• Transfer bit rate: MP3: 32 —320 kbps
                                    WMA: 48 —192 kbps
• Sampling frequency: MP3: 32, 44.1, 48 kHz
                                         WMA: 32, 44.1, 48 kHz

Do the following setting when compressing video/audio data in JPEG/MPEG data with the JPEG/MPEG encoder.
JPEG
• Picture size: Baseline format: 5,120 (W) x 3,840 (H) pixels
                        (Maximum size)*1
                        Progressive format: 2,048 (W) x 1,536 (H) pixels
                        (Maximum size)*2

MPEG
• Video format: MPEG1, MPEG2
• Picture size: MPEG1: 320x240, 352x240 (NTSC), 352x288 (PAL)
                        MPEG2: 640x480, 704x480 (NTSC), 704x576 (PAL)
• Audio format: MPEG1 Audio Layer2
• Transfer bit rate: 32—384 kbps CBR
• Sampling frequency: 32, 44.1,48 kHz

When you use your CD/DVD writer to record MP3/WMA/JPEG/ MPEG up to the maximum disc capacity, disable additional writing. For recording on an empty disc up to the maximum capacity at once, check Disc at Once.

⟨⟩
• Play mode may not be possible when portions of the functions of Windows Media Player 9 or higher are used.
• *1 A part of picture will not be displayed if the size of a picture exceeds maximum.
• *2 A picture will not be displayed if the size of a picture exceeds maximum.
• When you write for MPEG 2 data, please be sure to use DVD media.
• When you write data in DVD media, please be sure to set a setup of a DVD writer to "Disc at once".

Entering ID3 tag

The Displayable ID3 tag is ID3 version 1.x.
For the character code, refer to the List of Codes.

	0	1	2	3	4	5	6	7	8	9	A	B	C	D	E	F
0				0	@	P		p			■	°	À	Ð	à	đ
1			!	1	A	Q	a	q			i	±	Á	Ñ	á	ñ
2			"	2	B	R	b	r			¢	²	Â	Ò	â	ò
3			#	3	C	S	c	s			£	³	Ã	Ó	ã	ó
4			$	4	D	T	d	t			¤	´	Ä	Ô	ä	ô
5			%	5	E	U	e	u			¥	µ	Å	Õ	å	õ
6			&	6	F	V	f	v			¦	¶	Æ	Ö	æ	ö
7			'	7	G	W	g	w			§	·	Ç	×	ç	÷
8			(	8	H	X	h	x			♪	¸	È	Ø	è	ø
9			)	9	I	Y	i	y			©	¹	É	Ù	é	ù
A			*	:	J	Z	j	z			ª	º	Ê	Ú	ê	ú
B			+	;	K	[	k	{			«	»	Ë	Û	ë	û
C			,	<	L	\	l	|			¬	¼	Ì	Ü	ì	ü
D			-	=	M	]	m	}			®	½	Í	Ý	í	ý
E			.	>	N	^	n	~			®	¾	Î	Þ	î	þ
F			/	?	O	_	o	■			⁻	¿	Ï	ß	ï	ÿ

Entering file and folder names

You can use only characters shown on the code table for file name and folder name.
If you use any other character for entry, the file and folder names are not displayed correctly. They may neither be displayed correctly depending on the CD/DVD writer used. The MP3/WMA/JPEG/MPEG file must have the MP3/WMA/ JPEG/MPEG extension (.mp3/.wma/.jpg/.mpg).

⟨⟩
• A file with a name entered with characters not on the code list may not play correctly.

Writing files into a medium

When a medium containing MP3/WMA/JPEG/MPEG data is loaded, the unit checks all the data on the medium. If the medium contains a lot of folders or non-MP3/WMA/JPEG/ MPEG files, therefore, it takes a long time until the unit starts playing MP3/WMA/JPEG/MPEG.
In addition, it may take time for the unit to move to the next MP3/WMA/JPEG/MPEG file or a File Search or Folder Search may not be performed smoothly.

⟨⟩

Loading such a medium may produce loud noise to damage the speakers.
• Do no attempt to play a medium containing a non-MP3/WMA/ JPEG/MPEG file with the MP3/WMA/JPEG/MPEG extension. The unit mistakes non-MP3/WMA/JPEG/MPEG files for MP3/ WMA/JPEG/MPEG data as long as they have the MP3/WMA/ JPEG/MPEG extension.
• Do not attempt to play a medium containing non MP3/WMA/ JPEG/MPEG.

MP3/WMA/JPEG/MPEG playing order

When selected for play, Folder Search, File Search, or for Folder Select, files and folders are accessed in the order in which they were written by the CD/DVD writer.

Because of this, the order in which they are expected to be played may not match the order in which they are actually played. You may be able to set the order in which MP3/WMA/JPEG/MPEG are to be played by writing them onto a medium such as a CD-R with their file names beginning with play sequence numbers such as "01" to "99", depending on your CD/DVD writer.

JPEG

JPEG is a standardized image compression mechanism. JPEG stands for Joint Photographic Experts Group, the original name of the committee that wrote the standard. JPEG is designed for compressing either full color or gray scale images.

MPEG 1

The most common implementations of the MPEG 1 standard provide a video resolution of 352-by-240 at 30 frames per second (fps). This produces video quality slightly below the quality of conventional VCR videos.

MPEG 2

MPEG 2 offers resolutions of 720x480 and 1280x720 at 60 fps (NTSC), with full CD-quality audio. This is sufficient for all the major TV standards, including NTSC, and even PAL. MPEG 2 is used by DVD-ROMs. MPEG-2 can compress a 2-hour video into a few gigabytes.

Opening/Closing the Monitor and Power Switch

Open the monitor

[OPEN/CLOSE] key
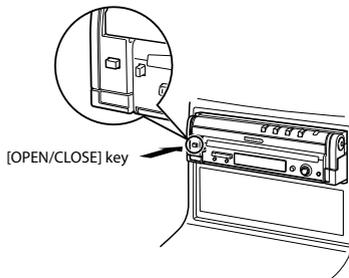

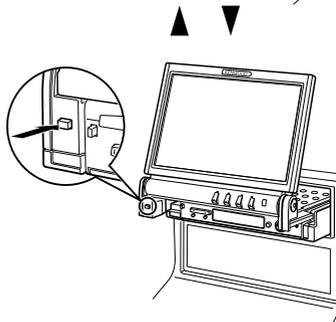

Close the monitor

Turn the power on

Hold down the [SRC] key more than one second to turn it off.

[SRC] key

⚠
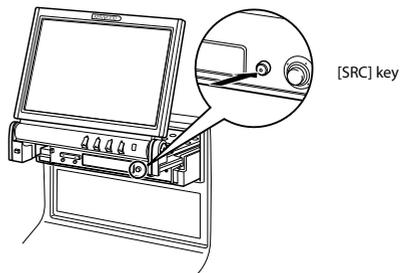

- Do not touch the moving components when you are opening or closing the monitor. If you touch the moving components, you may be hurt or the equipment may be damaged.
- Do not try to open or close the monitor by hand.

✎

- You can automatically open or close the monitor when you turn on or off the ignition key. (page 61).
- If the monitor movement is stopped by the shift lever or another obstacle when the monitor is opened, this movement is canceled by the safety function. If an obstacle is pinched by the monitor when closed, the monitor movement is also canceled by the safety function. If it has occurred, remove the obstacle and press the [OPEN/CLOSE] key again.

Removing/Attaching the Protection Panel

Remove the protection panel
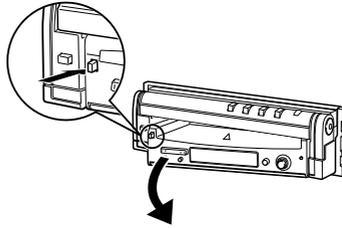

Attach the protection panel

Place the right end of the protection panel onto hooks and push it until clicked and locked. Then, push the left end of the panel to lock it.

Two hooks

⌨
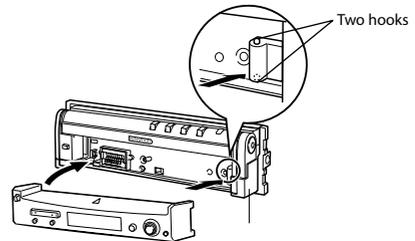

- Close the monitor first, then remove or attach the protection panel.
- After you have removed the protection panel, you cannot operate the receiver.
- After you have removed the protection panel, you can flash the burglar alarm lamp (page 82).

KVT-817DVD Basic operations

■ **When the monitor is open**
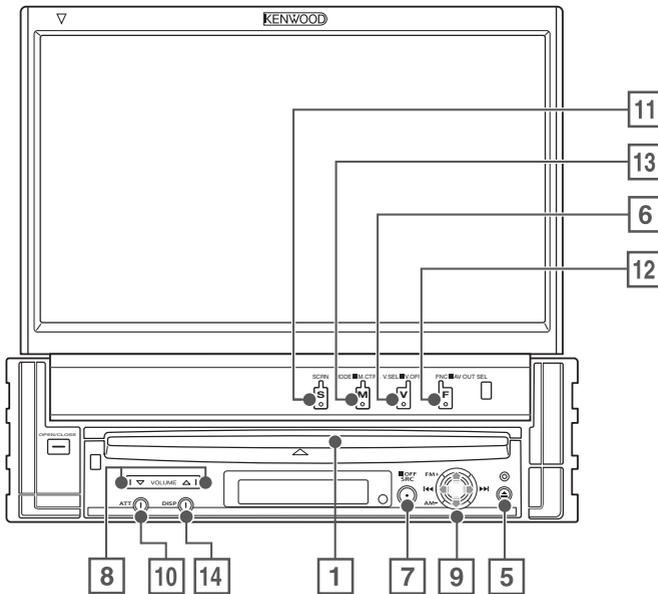

■ **When the monitor is closed**
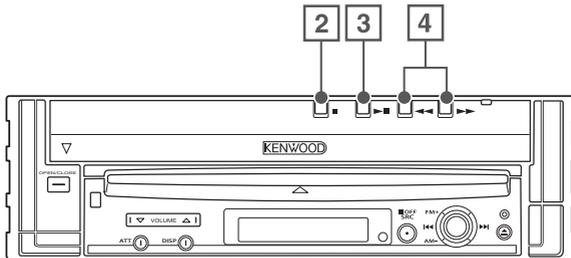

1 **Play Disc**
[Disc insertion slot]
A disc is played when you insert it.

2 **Stop to Play**
[■] key
Stops to play.

3 **Play/Pause**
[▶II] key
Pauses and replays a disc.

4 **Search Selectors**
[◀◀]/[▶▶] key
Searches a disc backward or forward.

5 **Eject Disc**
[▲] key
The disc is ejected.

6 **Video source selection/V.OFF**
[V.SEL] key
Video source selection changes in the following order
each time you press the key.

DVD/VCD
▼
TV */ Video
▼
R-CAM *
▼
Navigation *

* Optional accessory
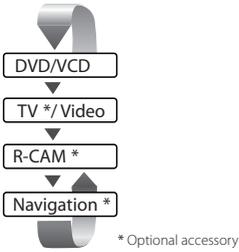

You can also turn off the video display by pressing the key longer than 1 second.
When you press the key again, the previous video display comes back on.

⁷ **Audio Source Selection/Power Supply**
[SRC] key

Audio source selection changes in the following order each time you press the key.

SIRIUS *
▼
DAB *
▼
TUNER or HD Radio *
▼
Built-in Disc player
▼
External Disc player *
▼
TV */ Video
▼
External Disc Changer *
▼
AUX EXT *
▼
Navigation *
▼
Weather Band Tuner *
▼
Standby Mode

* Optional accessory
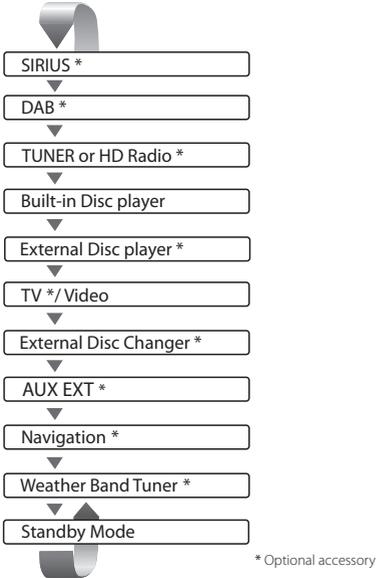

You can also turn off the power by pressing the key longer than 1 second.
When you press the key again,the power turns on.

⁸ **Volume Controls**
[▲]/[▼] key
Adjusts the volume.

⁹ **Joystick**
Track/Station Selectors
[|◀◀]/[▶▶|] key
Selects a music or chapter, track, or frequency.

Band/Folder Selectors
[FM]/[AM] key

[FM] key switches to the FM1/2/3 band or next folder/ disc.
[AM] key switches to the AM band or previous folder/ disc.

⑩ **Attenuater**
[ATT] key

Attenuaters the volume.
Press it again to cancel muting.

⑪ **Screen Setup**
[SCREEN] key

Displays the Screen Setup or Angle Setup screen. (page 61)

⑫ **Function/AV OUT SEL**
[FNC] key

The video source function changes in the following order each time you press the key.

Picture & Easy Control Panel
▼
Source Control
▼
Picture
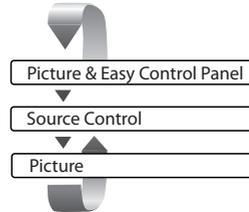

Switches the source that is output at the AV OUTPUT terminal when it is pressed more than 1 second.

⑬ **Switch Screen Mode/M.CTRL**
[MODE] key

Switches the screen mode. (page 17)
The DVD Disc Menu screen appears when you hold down the key more than 1 second. (page 22)

⟨⁘⟩
• DVD Disc Menu is not available when the top menu of the DVD is shown.

⑭ **Small Display**
[DISP] key

Switches to the Small Display. (page 16)

⟨⁘⟩
• Aside from the navigation system, the display turns on when you apply the parking brake.
• It is necessary to set "Navigation Source" of <AV Interface> to "On" to add Navigation as an audio source that can be selected the with [SRC] key. (page 77)
• It is necessary to engage the shift knob of car to "Reverse" to switch to rear view camera video display.

Basic Operations of Remote Controller
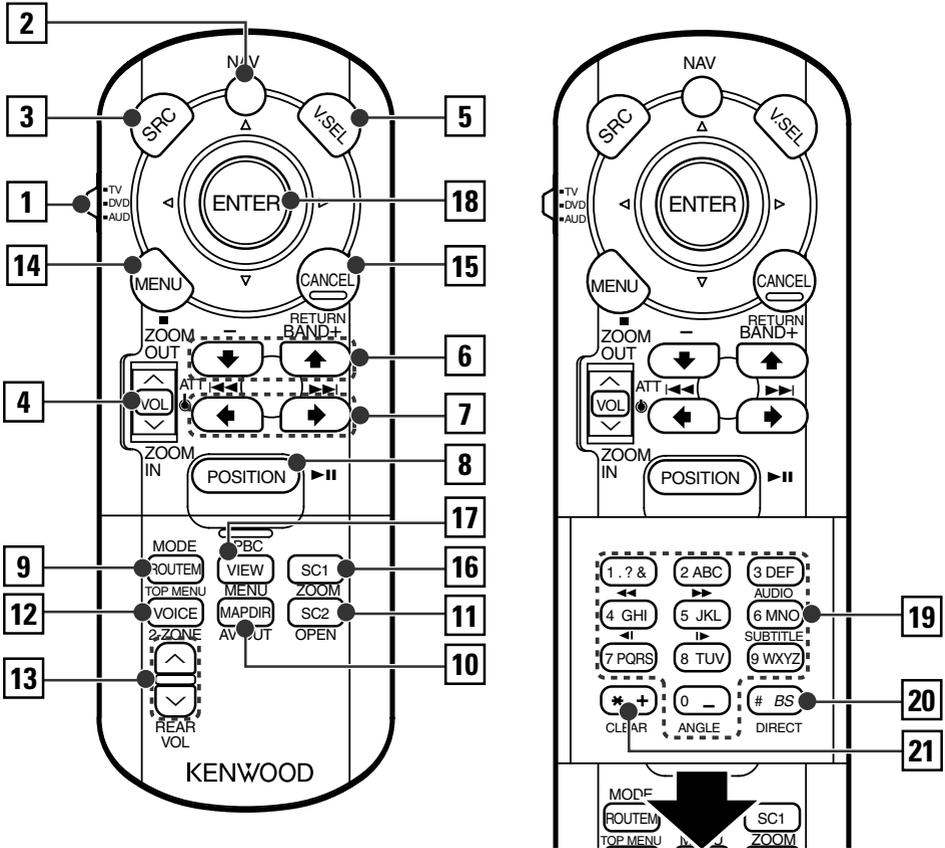

1 Remote Control Mode selector switch
Selects one of the following remote control modes when switched to AV control mode with [NAV] switch.
TV: TV source
DVD: Built-in DVD/VCD/CD/MP3/WMA/JPEG/MPEG player source
AUD: Tuner source or attached disc changer source

2 [NAV] switch
Pressing the switch until it locks enters into the navigation system control mode. Pressing the switch again returns to the AV control mode.

3 [SRC] key
Audio source changes each time you press the key.

4 [VOL] key
DISC   TV   TUNER
Adjusts the volume. When you press the key, the volume attenuates.
When you press the key again, the volume returns to the previous level.

NAV
Zooms in or out the navigation map.

5 [V.SEL] key
Video source selection changes in the following order each time you press the key.

DVD/VCD
TV */ Video
R-CAM *
Navigation *

* Optional accessory

{⏛}
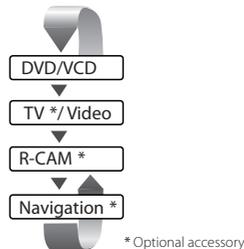

• It is necessary to engage the shift knob of car to "Reverse" to switch to rear view camera (R-CAM) video display.

6 **[BAND] key**
   DISC (When 1 is set to "DVD" or "AUD")
   Select a disc and a folder.
   TV (When 1 is set to "TV" or "AUD")
   BAND: Switches to TV1, TV2, VIDEO1, or VIDEO2.
   TUNER (When 1 is set to "AUD")
   +: Switches to the FM1, FM2, or FM3 band.
   –: Switches to the AM band.
   NAV
   Selects the icon.

7 **[|◄◄]/ [►►|] key**
   DISC (When 1 is set to "DVD" or "AUD")
   Selects a song.
   TV (When 1 is set to "TV" or "AUD")
   Select a channel.
   TUNER (When 1 is set to "AUD")
   Selects a station.
   NAV
   Selects an icon or scrolls horizontally.

8 **[►II] key**
   DISC (When 1 is set to "DVD" or "AUD")
   Plays or pauses.
   TV (When 1 is set to "TV" or "AUD")
   TUNER (When 1 is set to "AUD")
   Selects the Seek mode.
   (see page 34/41/50/54 for the <Seek Mode>)
   NAV
   Displays the current position.

9 **[TOP MENU] key**
   DVD (When 1 is set to "DVD")
   Calls the Top menu of DVD Disc Menu.
   DISC **TV** **TUNER**
   Switches the Screen mode. (page 17) (When 1 is set
   to "TV" or "AUD")
   NAV
   Displays Route Option menu.

10 **[AV OUT] key**
   DISC **TV** **TUNER**
   Selects an AV source to be output at the AV OUTPUT
   port.
   NAV
   Switches between the heading up navigation and
   north up navigation map displays.

11 **[OPEN] key**
   DISC **TV** **TUNER**
   Opens or closes the monitor each time you press the
   key.
   NAV
   Jumps to the function registered in Shortcut 2.

12 **[2-ZONE] key**
   DISC **TV** **TUNER**
   Turns Zone function on or off each time you press the
   key. (see page 100 for the <Zone Control>)
   NAV
   Plays Voice guidance.

13 **[REAR VOL] key**
   DISC **TV** **TUNER**
   You can adjust the rear channel volume when Zone
   function is on.

14 **[MENU] key**
   DVD (When 1 is set to "DVD")
   Stops to play the built-in disc play.
   NAV
   Displays Main menu.

15 **[CANCEL] key**
   DVD **VCD** (When 1 is set to "DVD")
   Returns to the previous screen when the DVD/VCD
   Disc Menu is displayed.
   NAV
   Displays previous screen (same as the [Return] button
   on the navigation screen).

16 **[ZOOM] key**
   DVD **VCD** (When 1 is set to "DVD")
   Each time you press the button, the zoom ratio
   switches.
   NAV
   Jumps to the function registered in Shortcut 1.

17 **[MENU] key**
   DVD (When 1 is set to "DVD")
   Calls the DVD Disc Menu.
   VCD (When 1 is set to "DVD")
   Turns the PBC (Playback Control) function On or Off.
   NAV
   Switches between 2D and 3D map displays.

18 **Joystick**
   DVD
   Enters your selection from the DVD Disc Menu.
   NAV
   Scrolls the map, or moves the cursor.
   Also performs the selected function when you press
   the button down.

   DVD   : An operation during DVD playback
   VCD   : An operation during VCD playback
   DISC   : An operation during DVD, VCD, CD, MP3/WMA/JPEG/MPEG or MD playback
   TV   : An operation during TV source
   TUNER : An operation during FM/AM broadcasting source
   NAV   : An operation during Navigation (KNA-DV2100,KNA-DV3100,KNA-DV4100) control mode

19 **[0] – [9] key**

   TV (When 1 is set to "TV")
   TUNER (When 1 is set to "AUD")
   (1.?&) — (6MNO) : Recall the stations on memory.
   NAV
You can enter a character/number.

[SUBTITLE] key

   DVD (When 1 is set to "DVD")
  (6MNO) : Switches a subtitle language.

[AUDIO] key

   DVD   **VCD** (When 1 is set to "DVD")
  (3DEF) : Switches an audio language.

[◀◀]/[▶▶] key

   DVD   **VCD**   **CD** (When 1 is set to "DVD")
◀◀: Fast Backward (Rewind). The speed changes each
   time it is pressed.
▶▶: Fast Forward. The speed changes each time it is
   pressed.

[◀ɪ]/[ɪ▶] key

   DVD   **VCD** (When 1 is set to "DVD")
◀ɪ : Slow Backward.
ɪ▶ : Slow Forward.

[ANGLE] key

   DVD (When 1 is set to "DVD")
  (0 _) : Switches the view angle.

20 **[DIRECT] key**

Selects the Direct Search mode.
(see page 23/31/36/43 for <Direct Search>)

21 **[CLEAR] key**

   DVD (When 1 is set to "DVD")
Clears a numeric value you have entered in the built-in
disc player during direct search.

About discs

Handling discs
- Do not touch the recording surface of the disc.

- CD-R/RW, DVD-R/RW, and DVD+R/RW are easier to damage than a normal music CD. Use a CD-R/RW, DVD-R/RW, or DVD+R/RW after reading the caution items on the package etc.
- Do not stick a tape, sticker, etc., on the disc. Also, do not use a disc with those materials pasted on it.

When using a new disc
If the disc center hole or outside rim has burrs, use it after removing them with a ball pen etc.

Burrs

Burrs
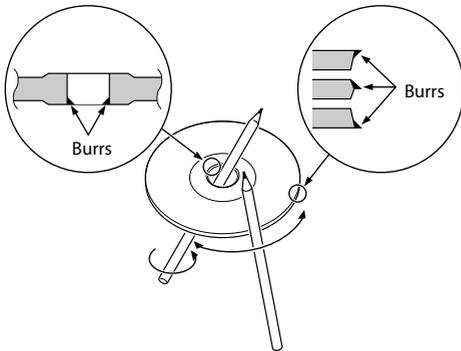

Disc shaped accessory
Do not insert a disc shape accessory into the unit.

Disc cleaning
Wipe from the center of the disc to outward.
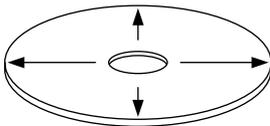

Removing discs
When removing discs from this unit pull them out horizontally.

Discs that cannot be used
- Discs that are not round cannot be used.
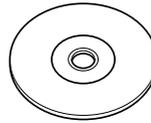

- Discs with coloring on the recording surface or that are dirty cannot be used.
- This unit can only play the CDs with one of labels.
  Discs without the label may not be played on the unit.
- A CD-R or CD-RW that hasn't been finalized cannot be played. (For the finalization process refer to your CD-R/CD-RW writing software user's guide, and your CD-R/CD-RW recorder instruction manual.)

Disc storage
- Do not leave discs in direct sunlight (On the seat or dashboard etc.) and where the temperature is high.
- Put discs in their cases.

Switching Small Display

The Small Display screen mode changes each time the [DISP] key is pressed.
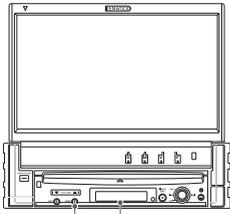

[DISP] key — **Small Display**

(see <Speaker Set Up>, page 66)

10 Displays the Speaker Crossover Setup screen.
(See <Crossover Network Setup>, page 69)
You can adjust the crossover setup that was set automatically when you selected the speaker type.

11 Sets the use or no use of tweeter.
(see <Speaker Set Up>, page 66)

12 Displays the Channel Level Setup screen.

13 Displays the Car Type Set Up screen.

⟨⊞⟩
• Your setup on the <Sound Effects Menu> is adjusted automatically to get the best sound effects according to the car type and speaker you have set on the <Audio Set Up> (page 64). We recommend you to complete the <Audio Set Up> first, then set up the <Sound Effects Menu>.
You can fine-adjust the automatic set value by <DTA Setup> (page 68) or <Parametric Equalizer> (page 93).

Displaying the Channel Level screen

You can set the volume at each setup position.

Channel Level screen
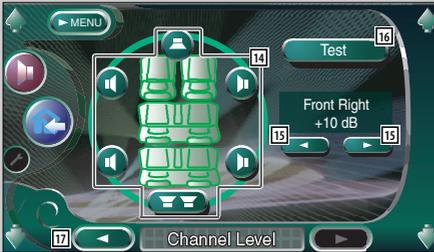

[14] Selects a speaker to be set.
(see <Channel Level>, page 67)

[15] Sets the speaker volume.
(see <Channel Level>, page 67)

[16] Starts or stops test signal tone output for setup check.

[17] Displays the Speaker Set Up screen.

Speaker Set Up

You can select a speaker type and its size to get the best sound effects.

1 Select a speaker you wish to adjust

 (Page 64 ⑧)

Speaker Set Up screen

① Center speaker
② Front speaker
③ Rear speaker
④ Subwoofer
⑤ Tweeter setup
   You can set the tweeter when you are selecting front speakers.
   If you are using a tweeter together with the front speakers, set the tweeter to "Use". In the "Use" position, the Equalizer is adjusted to its best position.

2 Select a speaker type

You can select any of the following speaker types.

Center speaker:
   NONE, 2 3/4x1 9/16 inch, 2 inch, 4 inch, 5 inch, 6 1/2 inch over

Front speakers:
   OEM, 4 inch, 5 inch, 6 1/2 inch, 6 3/4 inch, 7 inch, 4x6 inches, 5x7 inches, 6x8 inches, 6x9 inches, 7x10 inches

Rear speakers:
   NONE, OEM, 4inch, 5inch, 6 1/2inch, 6 3/4inch, 7inch, 4x6inches, 5x7inches, 6x8 inches, 6x9 inches, 7x10 inches

Subwoofer:
   NONE, 6 1/2 inch, 8 inch, 10 inch, 12 inch, 15 inch over

⌣

- Select "NONE" if you have no speakers.
- If you set the center speaker to "NONE" even in a short time when you are setting the Surround Control (page 94) to "Bypass+Center", the Surround Control is set to "Bypass" automatically.
- If you set the center and rear speakers to "NONE" when you are setting the Surround Control (page 94) to "Dolby PLII", the Surround Control is set to "Bypass" automatically.
- If you set the rear speakers to "NONE" when you are setting the Surround Control (page 94) to "SRS CS II", the Surround Control is set to "Bypass" automatically.

Channel Level

You can set the volume at each setup position.

You can select "Pattern1", "Pattern2" or "Off".

18 Displays the User I/F 2 screen.

Touch Panel Adjustment

You can adjust the touch panel operations.

1 Display the Touch Panel Adjust screen

(Touch)

If (Touch) is not shown, touch (▲ Prev.) or
(▼ Next) to display it.

① Adjusts the volume.
② Returns to the Control screen of the previous source.
③ Calls the Sound Effects Menu. (page 90)
④ Calls the Setup Menu.
⑤ Allows you to start touch panel adjustment.

2 Start to adjust the touch panel

(Set)

① Cancels the adjustment and returns to the Touch Panel Adjust screen.
② Resets to the initial status.

3 Adjust the positions

Touch the center of left lower and right upper ⊕ when requested.

Clock

You can adjust the clock time.

1 Display the Clock screen

[Clock]

If [Clock] is not shown, touch [▲ Prev.] or
[▼ Next] to display it.

① Adjusts the volume.
② Returns to the Control screen of the previous source.
③ Calls the Sound Effects Menu. (page 90)
④ Calls the Setup Menu.
⑤ Clock time display.
⑥ Adjusts hours.
⑦ Adjusts minutes.
⑧ Sets "00" minute.
  Setup examples: 3:00~3:29 ➜ 3:00
  3:30~3:59 ➜ 4:00
⑨ Sets the clock time in synchronization with the time data sent from the RDS station. (✐ Off)
  When turned "On", the synchronized mode starts and the clock cannot be adjusted manually.

2 Adjust the clock time

[▲] [▼]

Security Code Setup

You can set a security code to protect your receiver system against theft.

⚐
• When the Security Code function is activated, the code cannot be changed and the function cannot be released. Note, the Security Code can be set as the 4 digit number of your choice.

1 Display the Security Code Setup screen
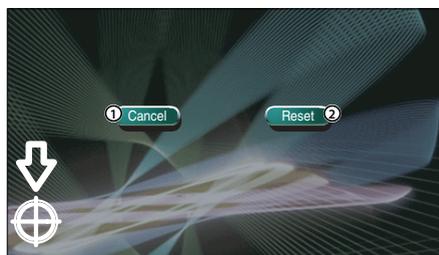

Security

If Security is not shown, touch ▲ Prev. or ▼ Next to display it.

① Adjusts the volume.
② Returns to the Control screen of the previous source.
③ Calls the Sound Effects Menu. (page 90)
④ Calls the Setup Menu.
⑤ Allows you to start security code registration.
⑥ Turns the DSI function on or off.
  If turned "On", the burglar alarm lamp flashes when the protection panel is removed. (✎ On)

⚐
• If you have already completed the code registration, Set is not available.

2 Start the security code registration

Set

① Enters the numbers to make your security code.
② Clears your entry.
③ Cancels the registration and returns to the Security Code Setup screen.
④ Registers your security code.

3 Enter a security code

0 — 9

Input a four-digit number.

4 Register your security code

Enter

5 Reenter the security code

Reenter the same security code as that you have entered in Step 3 for confirmation.

⚐
• If you enter a different security code, the screen returns to Step 3 (for the first code entry).

6 Register the security code again

Enter

Now, your security code is registered.
If you press the Reset button or if you disconnect your receiver from the battery after the code registration, you need to enter the registered security code.
See below for details.

If you have pressed the Reset button or if you have disconnected the Receiver from battery...

1 Enter the correct security code

0 — 9

You must enter the same security code as that you have entered in Step 3 above.

2 Enter the security code

Enter

Now, you can use your Receiver.

Set Up Memory

Audio Set Up and AV Interface settings can be memorized. The memorized settings can be recalled at any time. For example, even when the settings are cleared due to replacement of the battery, the settings can be restored.

1 Display the Set Up Memory screen

Set Up Memory

If Set Up Memory is not shown, touch ▲ Prev. or ▼ Next to display it.
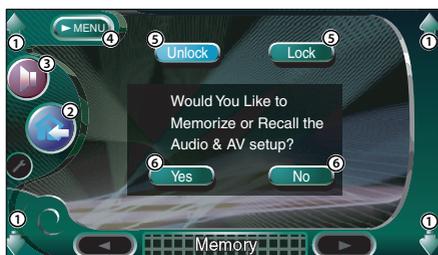

① Adjusts the volume.
② Returns to the Control screen of the previous source.
③ Calls the Sound Effects Menu. (page 90)
④ Calls the Setup Menu.
⑤ Locks the Audio Set Up and AV Interface settings. When Lock is selected, you cannot set the Audio Set Up and AV Interface settings.
⑥ Memorizes or recalls the settings. To cancel the function, touch No .
To cancel memorization, touch No . The Setup Menu screen appears again.

2 Display the Memory screen

Yes
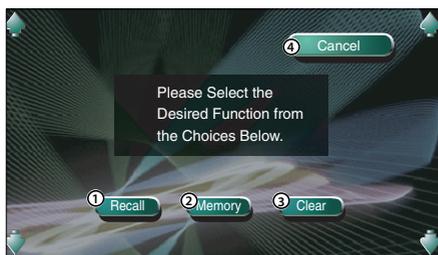

① Recalls the memorized settings.
② Memorizes the current Audio Set Up and AV Interface settings.
③ Clears the currently memorized settings.
④ Returns to Set Up Memory screen.

3 Memorize or recall the settings
When memorizing the Audio Set Up and AV Interface settings:

Memory

If settings have already been memorized, a confirmation message appears. Touch Yes . To cancel memorization, touch No .

When recalling the memorized settings:

Recall

Touching the screen displays a confirmation message. Touch Yes . To cancel recalling, touch No .

When clearing the currently memorized settings:

Clear

Touching the screen displays a confirmation message. Touch Yes . To cancel clearing, touch No .

4 Quit memorization/recalling of settings

Chancel

⁂
• When the settings have already been memorized, it will be cleared if you set up memory function without connecting a monitor and a receiver unit.

SIRIUS Setup
You can display the SIRIUS ID. (with the optional accessory SIRIUS Tuner connected only)

Displaying the SIRIUS Set Up screen

Touch P1 to P3 of your adjustment you wish to call from memory.

Zone Control

You can set the front and rear audio source.

Displaying the Zone Control screen

Zone Control

Zone Control screen

1 Adjusts the volume.

2 Returns to the Control screen of the previous source.

3 Calls the Setup Menu. (page 62)

4 Calls the Sound Effects Menu.

5 Turns the Zone Function (that sets different source sounds for front and rear speakers) On or Off. When turned On, Front , Rear and Rear volume are shown.

6 Adjusts the volume of the rear channel. (This button appears when the Zone function is On.)

7 Sets the front and rear audio source separately. (This button appears when the Zone function is On.)

⁂

• When the rear speaker sound is switched, the audio source that is output at the AV OUTPUT terminal is also switched to the same source.
However, if you have set the "Area" to "Reverse", the audio source that is output at the AV OUTPUT terminal is switched depending on the front sound source.

8 Switches the front and rear audio sources. (This button appears when the Zone function is On.)
Use "Reverse" to change over the front and rear audio sources.

⁂

• There are following limitations when zone function is set to "On".
- There is no output from the subwoofer or center.
- <Audio Setup> (page 64), <Equalizer> (page 92), <Surround Control> (page94), <SRS WOW> (page 96) <Position> (page98) are not available.

Glossary

DVD: Digital Versatile Disc

A type of disc which contains recording of audio/video packaged media with high video and audio quality, such as a movie, featuring large recording capacity and digital signal processing capability.

VCD: VIDEO CD

A type of CD which contains the recording of moving images. It compresses image information by about 1/120 and audio information by about 1/6 and accommodates up to 74 minutes of recording in a disc with the same diameter as ordinary music CD of 12 cm.

Some VCDs do not have the P.B.C. compatibility and are capable of playback only, while some are P.B.C.-compatible and are capable of various special playback control operations. This player can play both of these VCDs.

MPEG: Moving Picture Experts Group

This is an international standard for digital video and audio compression and decompression in media.

Dolby Digital

This is a digital audio compression technology developed by Dolby Laboratories. It is compatible with 5.1-channel surround audio as well as normal stereo (2-channel) audio and can accommodate a large amount of audio data efficiently in a disc.

DTS

Name of a digital surround system developed by Digital Theater Systems, Inc.

Top menu/menu (DVD)

Some DVDs display more than one title in a screen. This screen is referred to as the top menu. The menu is the item display (menu screen) for use in setting operations. The menu can be recalled any time during playback to perform settings according to the current software, including the audio switching between Dolby Digital and PCM, switching of language used in the subtitles and spoken voice.

Title number (DVD)

The title is the largest unit of video and audio recorded in a DVD. It usually corresponds to a single movie of video software or an album (sometimes a piece of music) of music software. The numbers assigned to individual titles are referred to as the title numbers.

Chapter number (DVD)

The chapter is a section of video and audio recorded in a DVD. A title is composed of several chapters. The numbers assigned to individual chapters are referred to as the chapter numbers.

Subtitles (DVD)

Some DVD discs contains the recording of more than one subtitle language. This player allow you to select one of the recorded subtitle languages during playback.

Track number (CD, VCD)

A track is also a section of video and audio recorded in a disc. The numbers assigned to individual tracks are referred to as the track numbers.

With most of music CDs, a track is assigned to a piece of music. However, with a VCD, the sections of the contents do not always correspond to the assigned tracks.

As (special) playback functions such as skipping and programming of ordinary CDs are based on track number data, such playback functions are sometimes impossible with some VCDs.

P.B.C.: Play-Back Control (VCD)

When a VIDEO CD carries "Play Back Control capable" or similar message on the disc or jacket, desired scenes and information can be played back in an interactive manner using a hierarchical structure while viewing the menu screens displayed on the TV screen.

SRS CS II (Circle Surround II)

Circle Surround II improves on its predecessor Circle Surround (CS5.1) by enabling you to experience powerful multi-channel surround sound playback from mono, stereo or Dolby Surround encoded audio and video sources.

With SRS CS II you can also listen to audio CDs, television and radio broadcasts in full surround sound. You will discover a new type of sound experience through SRS Circle Surround II.

Troubleshooting Guide

Some system functions are limited to control depending on your setup.

• Zone cannot be set.
• The "Rear Bass Boost" of Surround Control Adjust cannot be set.
• The rear speakers of DTA cannot be set.
• The "Position Fine Control" of rear speakers cannot be set.
• The "Channel Level" of rear speakers cannot be set.
• The SRS CS II cannot be set.

▶ The rear speakers have been set to "NONE" on the Speaker Set Up screen (page 66).

• No Surround Control (Sound Field) can be set.
• No signals can be set.
• The "Parametric Equalizer" cannot be set.
• The "Position (Position Fine Control)" cannot be set.
• The "Car Type Setup" value cannot be set.
• The "Speaker Setup" value cannot be set.
• No crossover frequency can be set.
• The "Channel Level" (test signal output) cannot be set.

▶ The Zone Control has been turned On (page 100).

• The Surround Control (Sound Field) cannot be set to "Bypass+Center".
• The "Center Level" of Surround Control Adjust cannot be set.
• The "Center Width Control" of Surround Control Adjust cannot be set.
• The center speaker for DTA cannot be set.
• The "Position Fine Control" of the center speaker cannot be set.
• The "Channel Level" of the center speaker cannot be set.

▶ The center speaker has been set to "NONE" on the Speaker Set Up screen (page 66).

• The Surround Control Adjust cannot be set.

▶ The Surround Control (Sound Field) (page 94) has been set to "Bypass" or "Bypass+Center".

• The Surround Control (Sound Field) cannot be set to "Dolby PLII".

▶ The center and rear speakers have been set to "NONE" on the Speaker Set Up screen (page 66).

• The subwoofer of DTA cannot be set.
• The "Position Fine Control" of the subwoofer cannot be set.
• The "Channel Level" of the subwoofer cannot be set.

▶ The subwoofer has been set to "NONE" on the Speaker Set Up screen (page 66).

• No sound effectors of SRS WOW.

▶ The Surround Control (Sound Field) (page 94) has been set to "Dolby PLII".

---

102 | English

What might appear to be a malfunction in your unit may just be the result of slight misoperation or miswiring. Before calling service, first check the following table for possible problems.

General

❓ The power does not turn on.
- ✔ The fuse has blown.
- ☛ After checking for short circuits in the wires, replace the fuse with one having the same rating.

- ✔ The speaker wire has a short-circuit or touches the chassis of the vehicle, and then the protection function is activated.
- ☛ Wire or insulate the speaker cable properly and press the reset button.

❓ The desired source is NOT selected although you pressed the SRC button.
- ✔ A non-connected source cannot be selected.
- ☛ A non-connected source is not selected. See <INSTALLATION MANUAL> and connect the unit correctly.

- ✔ The RESET button is not pressed yet although the optional unit has been connected to the system.
- ☛ Press the reset button (page 4).

- ✔ The "O-N" switch of the optional unit is at the "O" position.
- ☛ Set the "O-N" switch to the "N" position.

- ✔ A disc changer not supported by the system is used.
- ☛ Use a disc changer supported by the system (page 4).

❓ The message "Disconnected cable found. Please confirm a connection line" is displayed and the unit cannot be used.
- ✔ Receiver unit is disconnected.
- ☛ Connect the wire correctly, referring to the section on <INSTALLATION MANUAL>.

❓ Nothing happens when the buttons are pressed.
- ✔ The computer chip in the unit is not functioning normally.
- ☛ Press the reset button on the unit (page 4).

❓ No television/video image appears.
- ✔ The unit is not connected to the parking brake detection switch.
- ☛ Make proper connections according to <INSTALLATION MANUAL>.

- ✔ The parking brake is not engaged.
- ☛ For safety reasons no television/video images are displayed while the vehicle is moving. Engaging the parking brake will cause images to be displayed.

❓ The screen is dark.
- ✔ The unit is in a location where temperature is low.
- ☛ If the temperature of the monitor unit drops, the screen may appear darker when power is first turned on due to the characteristics of a liquid crystal panel. Wait a while after turning power on for the temperature to rise. Normal brightness will return.

❓ The screen does not darken when the vehicle's lights are turned on.
- ✔ The unit is set to auto dimmer.
- ☛ When the unit is set to auto dimmer, it is not linked to the vehicle's light switch.

- ✔ The illumination wire has not been connected. (If manual dimmer is set)
- ☛ Make proper connections according to <INSTALLATION MANUAL>.

❓ AM/FM radio reception is poor and/or there is noise.
- ✔ The TV antenna and vehicle's radio antenna are too close.
- ☛ Separate the two antennas as far as possible.
- ☛ Turn off the main unit.

❓ The remote controller does not operate.
- ✔ The remote control mode selector is not set correctly.
- ☛ Switch the remote control mode selector according to the source you select (page 12).

❓ No sound can be heard, or the volume is low.
- ✔ Attenuator is turned on.
- ☛ Turn off Attenuator.

- ✔ The fader or balance settings are set all the way to one side.
- ☛ Reset the fader and/or balance settings.

- ✔ The input/output wires or wiring harness are connected incorrectly.
- ☛ Reconnect the input/output wires or the wiring harness correctly. See the section on <INSTALLATION MANUAL>.

? The sound quality is poor or distorted.
- ✔ One of the speaker wires is being pinched by a screw in the car.
- ☛ Check the speaker wiring.

- ✔ The speakers are not wired correctly.
- ☛ Reconnect the speaker wires so that each output terminal is connected to a different speaker.

? Radio reception is poor.
- ✔ The car antenna is not extended.
- ☛ Pull the antenna out all the way.

- ✔ The antenna control wire is not connected.
- ☛ Connect the wire correctly, referring to the section on <INSTALLATION MANUAL>.

? The memory is erased when the ignition is turned off.
- ✔ The battery wire has not been connected to the proper terminal.
- ☛ Connect the wire correctly, referring to the section on <INSTALLATION MANUAL>.

- ✔ The ignition and battery wire are incorrectly connected.
- ☛ Connect the wire correctly, referring to the section on <INSTALLATION MANUAL>.

? Does not switch to the rear view camera video display when pressing the [V.SEL] button.
- ✔ The reverse sensor wire is disconnected.
- ☛ Connect the wire correctly, referring to the section on <INSTALLATION MANUAL>.

? The sound/picture skips on a DVD/VCD/CD.
- ✔ The disc is scratched or dirty.
- ☛ Clean the disc, referring to the section on <Disc cleaning> (page 15).

? A track will not play.
- ✔ Random play has been selected.
- ☛ Turn off random play.

? A VCD cannot be played using menus.
- ✔ The VCD disc being played is not compatible with P.B.C.
- ☛ Menu playback is available only with VCD discs recorded with P.B.C.

? The subtitle is not displayed.
- ✔ The DVD disc being played does not contain the recording of subtitles.
- ☛ The subtitle cannot be displayed when the DVD disc being played does not contain the recording of subtitles.

? The voice (or subtitle) language cannot be changed.
- ✔ The DVD disc being played does not contain the recording of more than one audio (or subtitle) language.
- ☛ The voice (or subtitle) language cannot be changed when the DVD disc being played does not contain the recording of more than one voice (or subtitle) language.

? The viewing angle cannot be changed.
- ✔ The DVD disc being played does not contain the recording of more than one angle.
- ☛ The viewing angle cannot be changed when the DVD disc being played does not contain the recording of more than one angle.

- ✔ You are attempting to switch the angle in a DVD section where more than one angle is not recorded.
- ☛ More than one viewing angle may be recorded only in limited sections in a disc.

? Playback will not start even after a title is selected.
- ✔ A viewing restriction (RATING) has been set for the disc.
- ☛ Check the viewing restriction level (RATING) setting.

? The voice or subtitle language selected in the initial setting is not played.
- ✔ The DVD disc being played does not contain the recording of the selected voice or subtitle language.
- ☛ Use a DVD disc containing the recording of the selected voice or subtitle language.

Disc source

? The disc control mode cannot be selected.
- ✔ No wire has been connected to the disc changer input terminal on the unit.
- ☛ Connect the wire to the disc changer input terminal on the unit.

? **The specified disc does not play, but another one plays instead.**
- ✔ The specified CD is quite dirty.
- ☛ Clean the CD.

- ✔ The CD is upside-down.
- ☛ Load the CD with the labeled side up.

- ✔ The disc is loaded in a different slot from that specified.
- ☛ Eject the disc magazine and check the number for the specified disc.

- ✔ The disc is severely scratched.
- ☛ Try another disc instead.

? **The sound skips.**
- ✔ Something is touching the disc changer.
- ☛ Remove whatever is touching it.

- ✔ The CD is scratched or dirty.
- ☛ If skipping happens at the same place when the car is stopped, something with the CD is wrong. Clean the CD.

? **The display shows that the changer is being played, but no sound can be heard.**
- ✔ The computer chip in the unit is not functioning normally.
- ☛ Press the reset button on the unit (page 4).

? **The specified track will not play.**
- ✔ Random play or magazine random play has been selected.
- ☛ Turn off random play or magazine random play.

? **Track repeat, disc repeat, track scan, disc scan, random play, and magazine random play start by themselves.**
- ✔ The setting is not cancelled.
- ☛ The settings for these functions remain on until the setting to off or the disc ejected, even if the power is turned off or the source changed.

? **Cannot remove disc.**
- ✔ The cause is that more than 10 minutes has elapsed since the vehicle ACC switch was turned OFF.
- ☛ The disc can only be removed within 10 minutes of the ACC switch being turned OFF. If more than 10 minutes has elapsed, turn the ACC switch ON again and press the Eject button.

MP3/WMA source

? **Cannot play an MP3/WMA.**
- ✔ The media is scratched or dirty.
- ☛ Clean the media, referring to the Disc cleaning of the section on <About discs> (page 15).

? **The sound skips when an MP3/WMA is being played.**
- ✔ The media is scratched or dirty.
- ☛ Clean the media, referring to the Disc cleaning of the section on <About discs> (page 15).

- ✔ The recording condition is bad.
- ☛ Record the media again or use another media.

? **The MP3/WMA track time is not displayed correctly.**
- ✔ ---
- ☛ There are times when it isn't displayed correctly according to the MP3/WMA recording conditions.

? **Cannot display the ID3 tag information correctly.**
- ✔ Record is not made in conformity with the ID3 tag version 1.x.
- ☛ Record in conformity with the ID3 tag version 1.x.
  Also, the display may be incorrect if an MP3/WMA file uses the ID3 tag v1.x standard and if this standard has been expanded after production of the machine software.

The following messages are displayed when certain problems are occurring in your system. Take the recommended actions.

Hot Error
The protective circuit in the unit activates when the temperature inside the unit exceeds 60℃ (140°F), stopping all operation.
⇨ Cool down the unit by opening the windows or turning on the air conditioner. As the temperature falls below 60℃ (140°F), the disc will start playing again.

Hold Error
The protective circuit in the unit activates when the temperature inside the automatic disc changer exceeds 60℃ (140°F), stopping all operation.
⇨ Cool down the unit by opening the windows or turning on the air conditioner. As the temperature falls below 60℃ (140°F), the disc will start playing again.

Mecha Error
The disc player is malfunctioning.
⇨ Eject the disc and try inserting it again. Contact the Kenwood dealer if this indicator continues blinking or the disc cannot be ejected.

Disc Error
The unplayable discs is inserted.

Read Error
The disc is upside-down.
⇨ Load the disc with the labeled side up.
The disc is quite dirty.
⇨ Clean the disc, referring to the section on <Disc cleaning> (page 15).

Region code Error
The DVD software encoded for other region code.

Parental level Error
The parental level is set to high levels.

Error 07 — 67
The unit is malfunctioning for some reason.
⇨ Press the reset button on the unit. If the "Error ##" code does not disappear, consult your nearest service center.

Specifications

FCC WARNING

This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.

NOTE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment may cause harmful interference to radio communications, if it is not installed and used in accordance with the instructions. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

NOTE

This Class B digital apparatus complies with Canadian ICES-003.
